Phone Delaware 1544.

SUNDAY SCHOOL PICNIC

The Daly City Community Sunday hool participated in a picnic at the ayground of the Fleishacker pool on aturday, July 31. Between forty and fty people were present. Games d swimming were enjoyed. A pic- c lunch was remarkable for the bundance of provisions. Ice cream as plentifully served. In the even- g a wiener roast took place. Mr. . Stotts and the officers and eachers of the Sunday school desire express their thanks for the help endered on this occasion.

Investigating Mysterious Slashing

The mysterious slashing of a horse owned by Mrs. J. Phelps of Redwood City is being investigated by Sheriff T. C. McGovern. The horse was found in its corral with a slash running from one of its shoulders to its rear fetlock. There was nothing in the enclosure which could have caused the wound.

COUNTY FIREMEN TO HAVE OUTING

A meeting of the advisory board of the Associated Firemen of San Mateo County was held Thursday evening of last week in Burlingame.

A committee was appointed to form a baseball league among the firemen of this county. Mr. Farrell, of Company No. 3, was selected as Daly City's representative.

The association is planning to have a big fire prevention campaign in the near future.

It was decided to give a picnic and a venison barbecue on the second Sunday in September. The place has not yet been decided upon. One of the features of the day will be a baseball game between Woodside and Burlingame. All firemen of San Mateo county are invited to attend, and bring their families.

The next regular meeting of the association will be held at Half Moon Bay, on Sunday, August 15, at 1:30 p. m., sharp. Don't forget the time and place and date. Ladies are invited and Half Moon Bay has prepared an entertainment for them.

Fire Marshal Rickman, of Company No. 2, Daly City Volunteer Fire Department, was elected chairman of the association at the meeting Tuesday.

Those present from Daly City were Fire Marshal Rickman, of Company No. 2; P. Ross, of Company No. 5, and Rinehart, of Company No. 5, and Commissioner Rodenberg, of Company No. 5.

This Thursday the advisory board met at Woodside.

ELEMENTARY SCHOOL TO OPEN NEXT

The elementary school for the new school year August 9. A large attendance is expected. The first day will be the same as usual, a full day, and all are requested to be present.

The only changes in the faculty are the resignations of Miss O'Brien and Miss [illegible], both popular and well liked, whose going is a loss to the Jefferson district.

Miss O'Brien is going to the World's Fair, at Chicago, for the time. She will be with Roy W. Cloud's Pageant of Daly City, which is to be a feature there, as she is a member of the Park.

Miss Erma [illegible] on our staff for the past year could stay as long as she desired, account of her health. She will get married and then resigns to devote her time to her home.

Miss [illegible] of San Francisco, and Miss [illegible] of Daly City, the 6th grade teacher, is a daughter of Mrs. Flynn.

VOTE BRID[GE]

the United States.

are attached. Some of these disturbances will be of the nature of a mere thundershower while others will be intense thunderstorms.

"Even after the passing of the storm, static will exist as long as the electric influence of the central 'low' is felt. The most severe of all thunderstorms occur south or southeast of a central low air pressure area along a line or front of a great mass of cooler and drier air which is slowly descending from the upper atmosphere and underrunning or lifting up the warmer and moister air ahead of it.

Lightning Affects Set.

"Much static predominates, not only from the central low area itself, but from the mechanical action of the vigorous air currents. Lightning associated with such storms is very severe and spreads out over a large area, affecting radio receivers over many miles, often over a whole state or more. Thunderstorms occur in nearly all parts of the world, but the number decreases rapidly as we pass from the equator toward the pole. In the tropics, there are many places that average a thunderstorm for nearly every day of the year, while in the Far North but one or two storms may occur in the course of several years. Fewer storms occur over the ocean than over land, and mountainous regions have far more than the level plains. In the United States, the largest number occur over the Gulf states. In New England there occur but approximately one-fourth of the thunderstorms experienced along the gulf, while at certain Pacific coast sections the proportion is very small as such storms are rare."

Static.

[Thunder]storms which oc- [re]gions of southerly the southeast or [an] air pressure area, [by] local topographical [con]sequent upward de- warm surface winds, [stim]ulate the formation [cum]ulus clouds. The committee in charge is headed by Miss Laura Figoni and Miss Elsie Forsell. The floor directors during the dance will be Mrs. Ernestine Edmond and Miss Florence McKendrick. Numerous and attractive awards are to be made during the evening. Members and their friends are invited to be present.

REDWOOD CITY WOMAN DIES AFTER TAKING POISON DOSE

"Come home quick, I have something to tell you," was the message which Mrs. Grace Rowen, 432 Phelps street, Redwood City, telephoned to her husband Monday afternoon. When the husband, Logan Rowen, a salesman of the Lambert & Walter Realty Company, arrived home he found his wife lying on the bed.

"I have just taken poison," she said, and collapsed.

Rowen telephoned for a physician, but when he arrived Mrs. Rowe was dead. An examination of the bed disclosed an empty strychnine bottle which the woman had drained and then hidden under the mattress.

His wife had been in ill health for some months, Rowen told the police.

Summer Is Best Time to Improve Radio Antenna

This is the best period of the year in which to make improvements in the antenna system—for the purpose of getting good results throughout the summer and bettering your usual records in the fall and winter when the signals from distant points are stronger.

Why not try shifting the direction of the aerial just to compare results? Sometimes this change makes quite a difference—and the comparison of results will be very interesting, states the service department of the Freed-Eisemann Radio corporation.

When you are overhauling your antenna system, be sure to clean off the insulator. This past winter, with its clouds of soft coal smoke, was a most severe one. The grime with which your insulators are fairly sure to be covered is a high-resistance conductor of electrical currents, consisting essentially of carbon. This means that some current at least is leaking across the insulators if they are dirty. If this is the case, and it probably is, your antenna system cannot approach its normal efficiency, because some of the grace Fellows, absorbs [illegible] street, four rooms and garage.

Horace Fellows, 1239 Brunswick street, four rooms and garage.

F. G. Henderson, four rooms, porch and garage.

OPENING OF EVENING SCHOOL

Evening classes will be enrolled at Jefferson Union high school next Monday evening at 7 o'clock. Classes offered will be along commercial lines, such as bookkeeping, stenography, typing, business English. If there is sufficient demand, classes will be offered in algebra, geometry and mechanical drawing. If you are interested in these courses or if you know of any one who might be interested, pass the word along to be at the high school next Monday evening, August 9. Only those classes will be offered in which there is sufficient registration.

Passing of Pioneer Publisher

Gilbert Daniels, 70, of San Francisco, member of the state prison board, died at the St. Mary's hospital late Tuesday, following an attack of acute indigestion. Daniels was former owner of the Oakland Enquirer. He was appointed to the state board of control in 1921 by Governor Richardson, was later made chief of the motor vehicle department, later state market director and recently was appointed member of the state prison board.

CALIFORNIA NEWS BRIEFS

The July term federal grand jury was impaneled in San Francisco on the twenty-sixth of the month and held its first session the same day. The jury was called a week early to hear important evidence presented by Assistant United States Attorney General Mabel Walker Willebrandt. During her present visit to the coast Mrs. Willebrandt has held a series of conferences with United States District Attorney George J. Hatfield on prohibition enforcement. According to Mrs. Willebrandt the government's law enforcement personnel will be strengthened by weeding out those unfitted by previous training for law enforcement work; and when men fitted by character and given adequate previous training are secured the Volstead Act can and will be successfully enforced.

Nearly seven thousand persons were killed or injured by automobiles in this state during the first six months of 1926. This was revealed in a report issued by the State Division of Motor Vehicles, showing 699 killed and 6,282 injured during the half year period. Of the injured, 1,968 were classified as "seriously injured or crippled." More than fifty of the dead were victims of hit-and-run drivers. The metropolitan districts, as usual, had the heaviest percentage of accidents. Los Angeles and San Francisco alone reported 159 deaths.

Discovery of the fossil remains of what is said to be a pre-historic mammal approximately 25 feet long has been made on a ranch near Elk Grove, south of Sacramento, according to a statement by C. E. Swisher, owner of the property. The find was made following an explosion of dynamite 15 feet below the surface of the earth while Swisher was digging a pit for installation of an irrigation pump. The blast unearthed a fossil segment 6 feet 4 inches long and said to have carried the toes of an ancient monster.

Charles King, Hanford, Kings county, builder of Tulare Lake Railway and one of the best informed men in Kings county on the resources of the Tulare Lake Basin, is engaged in arranging the transportation of this season's crops, and says that in his opinion the total yield of grain in the lake bottom lands this year will approximate 500,000 sacks, of which all but about 40,000 will have been grown on lands under well irrigation. Of the total crop about 80 per cent will be wheat.

A. B. B. Deming, proprietor of an abstract company with offices in the Placer county court house claims the distinction of walking a distance equal to the circumferance of the earth during trips to and from his office during the past 32 years. Deming, who lives on Aeolia Heights, estimates that he has walked the round trip an average of 400 times each year, which would make a total of 25,600 miles in the 32 years.

Now comes a book asking California school children to puzzle over the high cost of good radio sets, the speeds of various automobiles and how far the mighty Babe Ruth can hit a baseball. Holding that modern youngsters of school age are tired of working arithmetic problems dealing with the dull doings of A and B and the distance between Y and Z, textbook publishers have asked the State Board of Education to approve questions of a snappier nature.

The trustees of the Galt Joint Union High School have called for a bond election for the purpose of issuing and selling bonds to the amount of $100,000, to be used in reconstruction of the high school, which was completely destroyed by fire two years ago. The election for the sale of bonds has been voted upon several times, but each time has failed to carry.

Plans and specifications for the new mammoth Pacific Fruit Express plant which is to be built at Antelope, about [illegible] south of Roseville.

The enormious success which he made on his two previous appearances with the San Francisco orchestra, indicates the popularity and interest of the public in the splendid musicianship and engaging personality of this eminent Russian-American director.

The following program has been selected for next Sunday:

Overture to "Der Freischutz," by Weber.

Symphony No. 4, in D Minor, by Schumann.

Prelude to "Die Meistersinger," by Wagner.

"Peer Gynt" Suite, No. 1, by Greig.

Oriental Dances from "Prince Igor," by Borodin.

There is no doubt that the success attending the Hillsborough experiment has been an important help in the establishment of the present San Francisco summer symphony season.

YOUTH BURNED WHILE FIGHTING BRUSH BLAZE

Sidney Johnson, a young rancher, was badly burned while fighting a fire which swept over 500 acres of Spring Valley land near the county relief home, it being necessary for him to be taken to the hospital. Young Johnson, who lives in Belmont, and who had answered aa appeal for volunteers to check the blaze, was seriously injured when a hook caught him in the right leg, causing him to fall into the burning grass.

More than $150,000 is to be spent by the A. D. Porter estate heirs in modernizing the Byrns hotel building at Woodland.

Commodore P. Murray, 73, prominent resident of Three Rivers, and the first white child born in Tulare county, died recently.

A 2,000 pound sunfish caught in Catalina waters by Zane Grey, the novelist, has been mounted for scientific purposes.

Premiums totalling $14,000 will be awarded to winning exhibitors in the various departments of the Stanislaus County Fair at Modesto, September 13 to 18.

A high pressure water system to combat with the fire menace, with a steam pumping engine on the banks of the Russian river, is being installed near Guerneville.

Playground equipment for the new Exeter kiddies' park, the first in the city, has been donated by the Exeter American Legion Post working with the Women's auxiliary.

John H. Espey, one of the earliest settlers in northwestern California, is dead at the age of 87. He had resided in Sonoma county for more than 60 years. His parents came across the plains in 1849.

The California State Highway Commission has filed suit to condemn land owners by Clark Burnham between Truckee and Tahoe City, claimed to be necessary for the state highway leading into Lake Tahoe from the Victory highway.

Several buildings belonging to a mining company near Mariposa were destroyed recently by a range fire which swept within a few miles of Coulterville before being placed under control by the concerted efforts of residents of the town.

The Hanford Board of Trade at Hanford, has taken up the movement for having all fruit shipped from local packing plants carry the label, Grown In Kings County, and has sent a letter making a request that all shippers see that such labels are used.

Congressman Clarence F. Lea will open the Western Sonoma-Marin Cattle Show at Valley Ford August 13. Lea will talk on legislative maters affecting farmers and will also show the part cattle have played in the development of this part of the state. The show will be continued for three days.

The largest local conference of Seventh Day Adventists in the world will be held at Glendale, August 26 to September 5, inclusive, according to an announcement made by President O. O. Bernstein. Erection of a pavilion to seat 6500 delegates and the pitching of 625 tents will be started immediately.

The "vanishing American" isn't vanishing at all, in California at least, it was disclosed by L. E. Ross, chief of state bureau of vital statistics. Due to excess of births over deaths, Ross declared that Indian population of the state is increasing at rate of 100 redmen per year. California Indians now number 17,870, Ross said.

One hundred and forty-four purebred ewes and rams were cremated, and other property of the total value of $20,000 was destroyed in a fire which swept the Cadanasso tract north of Esparto, Yolo county, eighteen miles from Woodland. The fire started from a harvester working on a small tract of grain which was also destroyed.

The June bride crop for 1926 totaled 6,750, breaking all previous California records for the month of romances, it has been revealed by L. E. Ross, director of the state bureau of vital statistics. The marriage total last month broke Ross' preliminary estimate of Dan Cupid's activities by 260 and shattered the existing record, which was 6,412 weddings in June, 1925.

If poor handwriting is a sign of genius, as the popular saying has it, California is just now nurturing a generation of remarkable boys and girls. A. C. Olney, state commissioner of secondary schools, announced that examination of 500 pupils in representative high schools produced an average of only 53.2 per cent in penmanship. [illegible] President, Margaret McClurement was; Vice President, Sylvia Fischer; Second Vice President, Alice Mathias; Third Vice President, Lorraine Wall; Recording Secretary, Josephine T. Johnson; Financial Secretary, Minnie Barner; Treasurer, Ernestine Edmond; Marshal, Dolores Barron; Inside Sentinel, Rose Mowry; Outside Sentinel, Florence McKendrick; Organist, Ida Doyle; Trustees, Emma Schwarz, Anna K. Bauer and Margaret O'Connor.

THREE INJURED IN BLAZE

Carl Fyffe saved the lives of two companions when he groped his way on his hands and knees to the telephone in a burning building in San Bruno, and summoned the fire department. He fainted from the heat as soon as he had summoned the firemen and it was found necessary to carry him out. George Brownley was found unconscious in bed, and George Weissenheim managed to escape by diving through a window. Fyffe and Brownley were burned about the face and hands and are in a serious condition. The building was destroyed.

Has First View of Street Car

Frank Wellington, aged 75, living in Butano canyon near Pescadero, said to be the oldest active wood cutter in the west, visited San Mateo for the first time in twenty years, last Friday, says the San Mateo Times. Incidentally, Wellington had his first view of a street car.

Will H. Marsh, [illegible] of motor vehicles, has [illegible] semi-annual apportionment [illegible] tration fees paid by Californ[ians] [illegible]sts during the first six mont[hs] 1926, amounting to $5,779,941.60, [illegible] the state highway commission and the various counties.

One-half of this amount, or $2,889,970.80, will go to the highway commission for maintenance and repair of state highways. The other half will go to the counties, but $251,352.98 will be used to pay the salaries of traffic officers six months past, and $272,225.13 will be withheld, in accordance with a recent legislative act to pay traffic officers' salaries for the coming six months.

The net apportionment for road purposes to the counties will therefore be $2,366,392.69.

Although the salaries of the officers are deducted, Marsh stated this money finds its way back into the coffers of the cities and counties in fines imposed on violators arrested by the motorcycle men.

Los Angeles county will share greatest in the apportionment with a total of $1,140,132.26, as more than one-third of the motor vehicles of the state are registered from that county.

San Mateo county will get $30,962.34.

It is estimated that the construction of the Great Pyramid of Egypt required the equivalent of 100,000 men labouring for 20 years.

Prince of Sweden his first m[illegible] oFdr nteeghmisz shrdlu." The latter portion is probably Swedish for "Thanks for the buggy ride."

Fat folks are proverbially good natured, and certain concerns are said to have found that many of them are also gullible. As a protection to the latter class the Post Office Department has issued fraud orders against a number of firms which have swindled obese ladies through false claims for anti-fat remidies as aids in a reducing regimen.

COTTON AND SKIRTS

Last week there was held in Birmingham a conference called for the purpose of devising new uses for cotton, with a view to absorbing the surplus which now menaces the cotton growers of the South.

Many suggestions were made, among them the use of cotton more extensively for cement bags, beltings, cylinder linings, and so on. But a more daring proposition caught the imagination of those present.

An intrepid gentleman urged more clothes for women, declaring that more and longer skirts would aid the situation immensely. The other gentlemen agreed with him, and while it is not recorded that any resolutions on the subject were adopted, it is said that the delegates seemed willing to patriotically forego certain scenic delights of the present mode, in the

rest of the struggling cotton ier.

t, simple and feasible as the plan rs at first glance, it has its backs. Obviously the approval e women is vital to the success scheme, and they have not been rom. Will they, after secur- ncipation from long skirts ears of progressive abbrevi- nder their freedom in be- e economic proposition?

ough fashion should at day decree more and e doubt that they will cotton.

BLUE DAHLIA BEING SOUGHT BY SAN FRANCISCO GROWERS

The quest for a blue dahlia, the heretofore unattainable goal of all dahlia fans, is still being purused in San Francisco and the bay city gardens by would-be exhibitors at the coming dahlia show at the Palace Hotel, beginning August 26. All colors of the rainbow, from deep lavender to pure red and yellow, through all the gamut of orange, cerise, with an occasional pure white bloom, are shown in the enormous collection of dahlias originated in and about San Francisco, the world center of their culture. But never a blue one, although every gardener who grows seedlings watched every new bloom for the precious shade. The nearest to the cerulean flower is a blue lavender, with only a little of the persistent red mixed with the azure. Several of the local experts are very mysterious when the possibility of a blue dahlia being shown at the coming exhibit is mentioned, but no one has as yet announced the long hoped for accomplishments. Experiments in pollinizing have been tried, and more often the insects are left to make the matches between the flowers in the hopes that the offspring may be the precious blue dahlias so long looked for.

Anyway, poor folks may be thankful that they are not likely to be kidnaped.

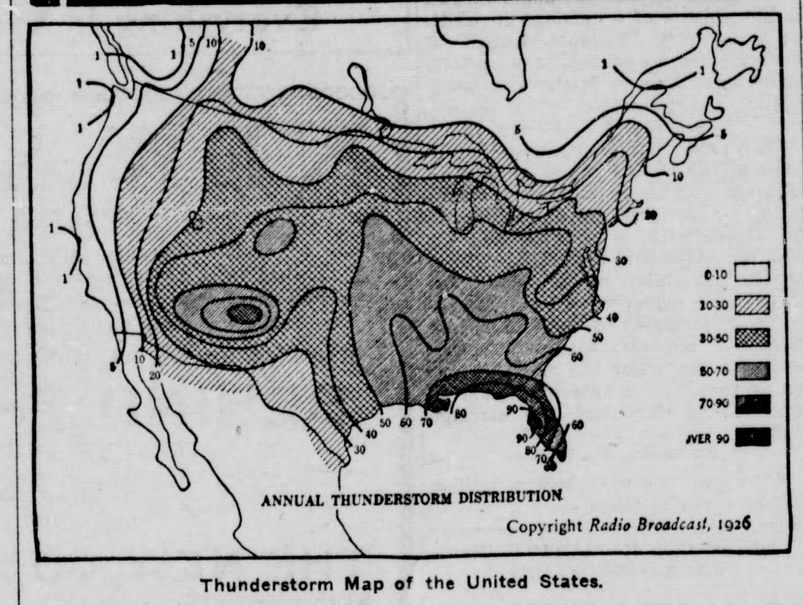
RADIO



Thunderstorm Map of the United States.

"It is not the sound of thunder that is heard in the radio set, but the actual wave that is propagated by the electric spark, or ligtning flash," says B. Francis Dashiell, writing in the Radio Broadcast Magazine. "Thunder is merely the sound of the air as it rushes in to fill the space or vacuum made by the passing of the spark. Such a wave will be heard simultaneously with the visibility of the flash, but ahead of the sound of the thunder. Electromagnetic waves travel at the same speed as light waves, 299,725,000 meters, or 186,000 miles per second, while sound travels but approximately 1,000 feet per second. There are certain regions which produce more thunderstorms than others, and there are certain weather conditions, as shown by the daily weather map, favorable to the inception of thunderstorms. Purely local storms of a sporadic character may be caused by local regions of warm air within a high air pressure area and predominating clear sky. These give rise to local static only, last but a short time, and seldom cross over much territory.

Have Much Static.

"There are thunderstorms which occur chiefly in the regions of southerly winds, either to the southeast or northeast of a low air pressure area, probably caused by local topographical conditions and consequent upward deflection of the warm surface winds, all of which stimulate the formation of large cumulus clouds. These storms have considerable static associated with them, not entirely due to the storm itself, but also to the meteorological elements of the central low air pressure area to which they are attached. Some of these disturbances will be of the nature of a mere thundershower while others will be intense thunderstorms.

"Even after the passing of the storm, static will exist as long as the electric influence of the central 'low' is felt. The most severe of all thunderstorms occur south or southeast of a central low air pressure area along a line or front of a great mass of cooler and drier air which is slowly descending from the upper atmosphere and underrunning or lifting up the warmer and moister air ahead of it.

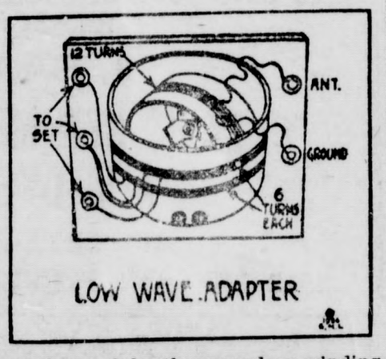
Lightning Affects Set.

"Much static predominates, not only from the central low area itself, but from the mechanical action of the vigorous air currents. Lightning associated with such storms is very severe and spreads out over a large area, affecting radio receivers over many miles, often over a whole state or more. Thunderstorms occur in nearly all parts of the world, but the number decreases rapidly as we pass from the equator toward the pole. In the tropics, there are many places that average a thunderstorm for nearly every day of the year, while in the Far North but one or two storms may occur in the course of several years. Fewer storms occur over the ocean than over land, and mountainous regions have far more than the level plains. In the United States, the largest number occur over the Gulf states. In New England there occur but approximately one-fourth of the thunderstorms experienced along the gulf, while at certain Pacific coast sections the proportion is very small as such storms are rare."

Attach Adapter for Low Waves on Super

There are many thousands of superheterodyne receivers in use, but practically all of them have been built for the reception of wave-lengths between 200 and 550 meters. Some of the large eastern stations are now transmitting regularly on the very low wave-lengths, and very often these stations can be picked up on the low waves when it is impossible to hear them on the regular wave-lengths.

The adapter shown is very simple and can be wound on the form of an old variocoupler, if you have one handy. A 3 by 3 bakelite or cardboard form



can be used for the secondary winding and a 1 by 2½ tube for the primary. Space-wind 12 turns of 24-gauge DCC wire for the primary and the same number of turns for the secondary.

A large number of "supers" have a center tapped loop and the secondary of the adapter is arranged so that you can connect the center loop post on the set to it while the leaders from the outside posts of the adapter go to the posts on the set that formerly connected to the outside leads on the loop. Where a two-lead loop is used, the center post is not used. The antenna and ground leads go to the two posts connected to the primary of the adapter.—Philadelphia Record.

Radio Invention Aids Deaf Children to Hear

Highly successful experiments have been made with a new apparatus for overcoming deafness, designed by a civil engineer of Hull, England, named Calvard, according to an official British dispatch from Rugby.

More than 80 per cent of the children in a Hull deaf and dumb institution have heard speech and music for the first time as the result of the invention, which has the appearance of a small wireless receiving set without aerial or ground connection, the dispatch said. The results are achieved by transmission of sound to the inner ear of deaf patients. It does not succeed with all sufferers, but with a large proportion.

Summer Is Best Time to Improve Radio Antenna

This is the best period of the year in which to make improvements in the antenna system—for the purpose of getting good results throughout the summer and bettering your usual records in the fall and winter when the signals from distant points are stronger.

Why not try shifting the direction of the aerial just to compare results? Sometimes this change makes quite a difference—and the comparison of results will be very interesting, states the service department of the Freed-Eisemann Radio corporation.

When you are overhauling your antenna system, be sure to clean off the insulator. This past winter, with its clouds of soft coal smoke, was a most severe one. The grime with which your insulators are fairly sure to be covered is a high-resistance conductor of electrical currents, consisting essentially of carbon. This means that some current at least is leaking across the insulators if they are dirty. If this is the case, and it probably is, your antenna system cannot approach its normal efficiency, because some of the energy which it absorbs is being carried away from it to the antenna support and so leaking into the ground instead of traveling down the lead-in wire to your set.

If you are using insulators of fiber with an unpolished surface, the soot and grime may have become so imbedded in the surface that it would be almost impossible to properly clean off. In this case you will avoid further loss of efficiency by replacing the present insulators with glass ones or with porcelain ones, which have a highly glazed surface. Insulators of this kind not only refuse to absorb dirt and moisture, but they are also much easier to clean. Soap and water with a stiff brush will do the trick.

If the antenna wire is badly corroded, it should be replaced.

Ohms Add Up for Fixed Resistance in Series

When connected in series resistors always add up their respective values, even if they are different. When connected in parallel the total resistance of the group is equal to the reciprocal of the sum of the reciprocals of the individual resistors. If they are all of equal value the group resistance is equal to that value divided by the number in the group.

Thus three resistances of 100,000, 250,000 and 50,000 ohms, connected in series, have the effect of a single 400,000-ohm one; in parallel they are equivalent to 29,411 and a fraction ohms. Three 100,000-ohm resistances in parallel equal 33,333 1-3 ohms.

CALIFORNIA NEWS BRIEFS

The July term federal grand jury was impaneled in San Francisco on the twenty-sixth of the month and held its first session the same day. The jury was called a week early to hear important evidence presented by Assistant United States Attorney General Mabel Walker Willebrandt. During her present visit to the coast Mrs. Willebrandt has held a series of conferences with United States District Attorney George J. Hatfield on prohibition enforcement. According to Mrs. Willebrandt the government's law enforcement personnel will be strengthened by weeding out those unfitted by previous training for law enforcement work; and when men fitted by character and given adequate previous training are secured the Volstead Act can and will be successfully enforced.

Nearly seven thousand persons were killed or injured by automobiles in this state during the first six months of 1926. This was revealed in a report issued by the State Division of Motor Vehicles, showing 699 killed and 6,282 injured during the half year period. Of the injured, 1,968 were classified as "seriously injured or crippled." More than fifty of the dead were victims of hit-and-run drivers. The metropolitan districts, as usual, had the heaviest percentage of accidents. Los Angeles and San Francisco alone reported 159 deaths.

Discovery of the fossil remains of what is said to be a pre-historic mammal approximately 25 feet long has been made on a ranch near Elk Grove, south of Sacramento, according to a statement by C. E. Swisher, owner of the property. The find was made following an explosion of dynamite 15 feet below the surface of the earth while Swisher was digging a pit for installation of an irrigation pump. The blast unearthed a fossil segment 6 feet 4 inches long and said to have carried the toes of an ancient monster.

Charles King, Hanford, Kings county, builder of Tulare Lake Railway and one of the best informed men in Kings county on the resources of the Tulare Lake Basin, is engaged in arranging the transportation of this season's crops, and says that in his opinion the total yield of grain in the lake bottom lands this year will approximate 500,000 sacks, of which all but about 40,000 will have been grown on lands under well irrigation. Of the total crop about 80 per cent will be wheat.

A. B. B. Deming, proprietor of an abstract company with offices in the Placer county court house claims the distinction of walking a distance equal to the circumferance of the earth during trips to and from his office during the past 32 years. Deming, who lives on Aeolia Heights, estimates that he has walked the round trip an average of 400 times each year, which would make a total of 25,600 miles in the 32 years.

Now comes a book asking California school children to puzzle over the high cost of good radio sets, the speeds of various automobiles and how far the mighty Babe Ruth can hit a baseball. Holding that modern youngsters of school age are tired of working arithmetic problems dealing with the dull doings of A and B and the distance between Y and Z, textbook publishers have asked the State Board of Education to approve questions of a snappier nature.

The trustees of the Galt Joint Union High School have called for a bond election for the purpose of issuing and selling bonds to the amount of $100,000, to be used in reconstruction of the high school, which was completely destroyed by fire two years ago. The election for the sale of bonds has been voted upon several times, but each time has failed to carry.

Plans and specifications for the new mammoth Pacific Fruit Express plant which is to be built at Antelope, about four miles south of Roseville, are now being prepared by company engineers. A contract for $1,500,000 for steel used in the new plant was recently let to a San Francisco firm. The new plant will number about twenty-five buildings, some of which will be 600 feet in length.

More peaches will be harvested in the Yucaipa Valley this year than ever before, according to reports coming in from the various orchards. All peaches have borne well this year, the early peaches exceptionally well and now the J. H. Hales are doing their bit to swell the total. The late peaches also give promise of a large yield.

Yuba county made a net gain of $237,625 in the assessment rolls for 1926 over 1925 it was shown in the annual report filed by County Assessor Tom E. Bavan. The total roll of the county shows $16,608,745. The gain in personal property assessments over 1925 is $27,715.

Warning sportsmen of the state that overfishing is exterminating steelhead trout in the streams of California, Dr. David Starr Jordan, chancellor emeritus of Stanford University, delivered a plea for conservation of the state's resources of wild life at a public meeting of the Monterey county chapter of the Isaac Walton League of America last week.

A double execution at San Quentin penitentiary on October 8 has been announced by Warden Frank J. Smith. Two men, both convicted of murder in Los Angeles county, are to satisfy the law by hanging

More than $150,000 is to be spent by the A. D. Porter estate heirs in modernizing the Byrns hotel building at Woodland.

Commodore P. Murray, 73, prominent resident of Three Rivers, and the first white child born in Tulare county, died recently.

A 2,000 pound sunfish caught in Catalina waters by Zane Grey, the novelist, has been mounted for scientific purposes.

Premiums totalling $14,000 will be awarded to winning exhibitors in the various departments of the Stanislaus County Fair at Modesto, September 13 to 18.

A high pressure water system to combat with the fire menace, with a steam pumping engine on the banks of the Russian river, is being installed near Guerneville.

Playground equipment for the new Exeter kiddies' park, the first in the city, has been donated by the Exeter American Legion Post working with the Women's auxiliary.

John H. Espey, one of the earliest settlers in northwestern California, is dead at the age of 87. He had resided in Sonoma county for more than 60 years. His parents came across the plains in 1849.

The California State Highway Commission has filed suit to condemn land owners by Clark Burnham between Truckee and Tahoe City, claimed to be necessary for the state highway leading into Lake Tahoe from the Victory highway.

Several buildings belonging to a mining company near Mariposa were destroyed recently by a range fire which swept within a few miles of Coulterville before being placed under control by the concerted efforts of residents of the town.

The Hanford Board of Trade at Hanford, has taken up the movement for having all fruit shipped from local packing plants carry the label, Grown In Kings County, and has sent a letter making a request that all shippers see that such labels are used.

Congressman Clarence F. Lea will open the Western Sonoma-Marin Cattle Show at Valley Ford August 13. Lea will talk on legislative maters affecting farmers and will also show the part cattle have played in the development of this part of the state. The show will be continued for three days.

The largest local conference of Seventh Day Adventists in the world will be held at Glendale, August 26 to September 5, inclusive, according to an announcement made by President O. O. Bernstein. Erection of a pavilion to seat 6500 delegates and the pitching of 625 tents will be started immediately.

The "vanishing American" isn't vanishing at all, in California at least, it was disclosed by L. E. Ross, chief of state bureau of vital statistics. Due to excess of births over deaths, Ross declared that Indian population of the state is increasing at rate of 100 redmen per year. California Indians now number 17,870, Ross said.

One hundred and forty-four purebred ewes and rams were cremated, and other property of the total value of $20,000 was destroyed in a fire which swept the Cadanasso tract north of Esparto, Yolo county, eighteen miles from Woodland. The fire started from a harvester working on a small tract of grain which was also destroyed.

The June bride crop for 1926 totaled 6,750, breaking all previous California records for the month of romances, it has been revealed by L. E. Ross, director of the state bureau of vital statistics. The marriage total last month broke Ross' preliminary estimate of Dan Cupid's activities by 260 and shattered the existing record, which was 6,412 weddings in June, 1925.

If poor handwriting is a sign of genius, as the popular saying has it, California is just now nurturing a generation of remarkable boys and girls. A. C. Olney, state commissioner of secondary schools, announced that examination of 500 pupils in representative high schools produced an average of only 53.2 per cent in penmanship. The test requirement was 62 per cent.

Twelve tomatoes that fill a cantaloupe crate and weigh fifteen pounds is a record that has been achieved by F. D. Brown of Bakersfield. They are without flaws or blemishes, having at no time suffered from the blight that has affected other tomatoes of the country. They were grown in a small plot in his backyard where he daily gathers three gallon bucketfuls from eight or ten plants. The seeds, are of a special variety.

C. E. Berry, Santa Barbara county horticultural inspector, is concealing the bitter taste of squirrel poison strychnine with soda, and adds starch, syrup and glycerine. It is reported that the ground squirrels have grown wise, and that whenever they detect the characteristic flavor of the poison they fill up on green stuff instead of seeking water. Drinking water after eating strychnine is fatal, but with the vegetable feed afterward, the rodents are said to survive.

Marking the opening of a new era in Yosemite motoring, the Merced-El Portal link of the park highway was dedicated at Clark's mill, Mariposa county, Saturday, July 31. In the presence of high state and automobile officials, the road, built by the efforts largely of 400 San Quentin and Folsom convicts was opened for use.

Plans are on way for a two-story and basement fireproof club building for Alameda County American Legion. It is to be erected in Adams Park, between Grand avenue and Harrison street, Oakland, and will cost approximately $200,000.

THE McPHERSON CASE

The Los Angeles county grand jury has reached a decision tantamount to abandoning further investigation of the kidnaping of Aimee Semple McPherson, and instructed the district attorney to continue a secret inquiry into all phases of the case.

The foreman of the jury is quoted as saying: "After considering all the evidence presented by the district attorney and his assistant, the grand jurors, by a unanimous vote, decided that because of many contradictions in the evidence, it will not be possible to make any definite decision concerning the kidnaping or disappearance of Aimee Semple McPherson."

The McPherson kidnapping case has occupied the attention of the press and the public for some time, and it would appear that it was about time it was relegated to oblivion.

FIGHTING EDITORS

Whatever may be said of the two recent tragedies, one in Ohio and the other in Texas, in one of which an editor was assassinated and in the other and editor killed his man—we must conclude that the aggressive type of fighting editor is not yet extinct.

In Canton, Ohio, Don R. Mellett, editor of the Daily News, was shot to death by murderers hidden in the darkness, as he was putting his automobile in his garage at midnight. Mellett's vigorous fight on vice conditions in Canton for several months through the columns of the News is believed to have led to his death at the hands of underworld thugs.

In Fort Worth, Texas, on the following night, Rev J. Frank Norris, editor of a religious publication, the Searchlight, shot three times and killed a fellow citizen who had called to protest against the printing of a scathing sermon directed against the mayor of the city. Norris declares that he fired when he was about to be attacked.

These tragedies bring to mind the case of Carl E. Magee, editor of Albuquerque, New Mexico, who in an effort to shoot a former judge of that state who had brutally attacked him in a hotel lobby, accidentally killed a friend, a bystander who was trying to aid him.

All these cases grew out of violent denunciations in the press of individuals charged with corrupt practices of one sort or another. There have been many such tragedies connected with sensational journalism. In those mentioned the situations were widely different, and no generalization can apply to all three, except that they were all due to bitter feelings engendered by volent newspaper attacks.

There can be no extenuation of the murder of Mellett; Norris possibly may be found to be justified; Magee certainly did not intend to kill the man who was the victim of his pistol.

The question that arises is this: Do not editors of this type frequently go beyond reasonable limits in their denunciations of individuals whose actions they hold up to public scorn? In other words, is it not possible to condemn wrongdoing in an adequate manner without making published articles so bitter and offensive as to put murder in men's hearts.

MUSCLE SHOALS AT WORK

After a brief shut-down, the power of Muscle Shoals again flows into the channels of industry, through a new arrangement whereby the Alabama Power Company resumes the distribution of the energy generated by this great government plant.

The new contract, like the former one, is temporary, guaranteed only until Congress reassembles in December in another effort to make some final dispostion of the big project, but in the event that such disposition can not be agreed upon, the power may be utilized as at present for an indefinite period.

As a matter of fact, there seems to be little probability that Congress, particularly the Senate, will agree upon the terms of a long-time lease to anyone. The deadlock which has existed for five years appears to be firmer than ever.

While a special committee of Congress has by a vote of four to two approved the lease of Muscle Shoals to the Alabama Power Company and associated companies under the terms of a bid submitted to them, strong opposition is seen in the Norris group favoring government operation, and the group headed by the Alabama senators, who favor the bid of the American Cyanimide Company.

So uncompromising are these three groups that it seems probable that a proposal of either inevitably will be opposed by the other two, so that a majority for any one of the three will be difficult, if not altogether impossible.

From the standpoint of the country at large, in view of this vexing situation, it is fortunate that the power of Muscle Shoals is not going to waste, but that it is available for industry, while the government is receiving at least a moderate return upon its investment in this "white elephant" born of the World war.

AROUND WORLD RECORD

Many things have happened since Jules Verne wrote his then fantastic tale, "Around the World in Eighty Days." No doubt early readers of that famous book considered it only another of the author's vagaries entertainingly presented. At that time no one except a few supposedly crackbrained Darius Greens had any idea that men would ever fly through the air.

But even before the days of airplanes a newspaper woman known as Nellie Bly made the trip in seventy-three days. Subsequent globe-trotters gradually reduced the time until John Henry Mears made the record of about thrity-five days in 1913—a record which stood until a few days ago.

In June, two Americans, E. S. Evans and Linton Wells, started out to beat Mear's time, which they did, completing the circuit in twenty-eight days, 14 hours, 36 minutes and 5 seconds, or a little more than one-third of the time set by Verne in his famous book.

Some day this latest record will seem to indicate a slow pace. With the recent feat of a non-stop airplane flight of 2,800 miles in mind, we may confidently look to the day when some monster of the air may girdle the globe without a landing in a week, or possibly less.

HAVE A GREAT PURPOSE

Isn't it true that most people are little day-by-day insects, drifting west today, and east tomorrow, says H. N. Casson, in Forbes Magazine.

Are they not ready to go in any direction. Are they not saleable to anyone who will pay the price?

Are they not indifferent as to what they do, as long as they can be well paid for it?

Is it not true that many of our so-called Leaders have no purpose—no clear policy? Do they not follow their own mobs about?

A story is told of Lord Roseberry, that when he was a lad at college, he declared that he had three purposes—to marry an heiress, to win the Derby and to be Prime Minister. He succeeded in all of these. In fact, he did more—he won the Derby three times.

The fact is that people will not follow a Leader if they believe he does not know where he is going. But a purposeful man, no matter what his purpose is, will very soon have a number of followers.

A great purpose greatens a man who possesses it. Walk straight and strongly in a crowded street and other people will get out of your way.

RADIO CONTROL LOST

Through the failure of Congress to enact new radio legislation during the last session, and because of adverse legal decisions, the Department of Commerce is without authority to control radio operations as heretofore.

As a result of this situation, the department has issued a statement acknowledging its inability to enforce former regulations regarding wavelengths to be used, or hours during which stations may operate, until Congress shall by new legislation confer suitable authority.

Secretary Hoover requests, however, that in the meantime all stations observe "the sense of fair play as well as interest in the protection of the situation as a whole," so as to prevent aerial trespassing and confusion.

That Congress should have failed to enact appropriate legislation for radio control is regrettable, as it is a matter of considerable importance to a great number of people. Should the recommendations of the department not be heeded, endless confusion will result.

It would seem that as a common sense measure of mutual protection the broadcasting stations would be willing to co-operate, even in the absence of legal restrictions, in order to avoid interference with one another. Whether they will do so remains to be seen.

RABBITS NOT UNLIKE HUMANS

B. C. Forbes has the following in Forbes Magazine:

My boys have—maybe I should say had—two tame rabbits. The other day they mysteriously escaped. When we tried to catch them they dodged. Morning and afternoon they venture into the vegetable garden, but so far they have outwitted all our efforts to recapture them. They prefer to be entierly foot-free to run around and do what they wish. Our efforts to catch them no doubt strike them as cruel. But we know that if we do not succeed in giving them protection, dogs will come along and destroy them. Our apparent cruelty is actuated by nothing but kindness.

Aren't we human beings at least a little like these rabbits? Do not many of us resent being chained to daily duties? Don't we sometimes long for freedom to roam wherever fancy might lead and to do exactly as moved? Often I have heard men of large affairs complain bitterly of being tied to a treadmill, powerless to escape. And have you not often heard workers curse the necessity for daily toil and paint glittering pictures of the life they would lead had they leisure and freedom?

Just as the rich and the poor men alike inwardly rebel against their confining duties, so the rabbits have rebelled against being confined. Yet, rich and poor and rabbits all doubtless would fare worse were they to escape and do nothing but indulge their whims. How many of us could resist the debilitating allurements of luxurious loafing?

History shows and observation shows that the idle rich have a fatal faculty for getting into trouble. Our chaining responsibilities doubtless are our greatest blessing. But if we haven't sense enough to realize this, what can we expect of rabbits?

ABOUT SAVING

By spending $1 which you could have saved before you are 20 you spend $10. By spending $1 before you are 30, you spend $6. By spending $1 before you are 40, you spend at least $2.

How so? One dollar or $100 or any other number of dollars, carefully invested, will double in about a dozen years. Therefore, $1 saved and invested before 20 will amount to $10 in 40 years, or by the time most people think they would like to take life easy. The dollar saved before 30 would amount to $6 when the saver reached 60.

If you have never realized this and given it serious thought, do so now, for it may make it less painful to practice the self-restraint and self-denial which saving usually entails. It is better to do without early in life than to have to go without late in life.

King Alfonso of Spain has a collection of relics which serve to remind him that he is lucky to be on earth today. Among them are the nipple of a feeding bottle used in an attempt to poison him when he was a baby, pieces of a bomb hurled at him in Barcelona, the skeleton of a horse killed by another bomb thrown at him, pieces of a carriage in which he rode with President Loubet of France when an attempt was made to assassinate him in Paris, and other similar souvenirs.

Salvatore Puglisi appealed the refusal of the United States authorities to admit him as an immigrant, claiming to be an actor and not subject to the immigration quota. Denying his plea the court said his record did not justify his claim, as in one of the plays in his repertoire his only speaking part consisted of the words "All right." It appears that to be classified as a real actor one must portray a role requiring a speech at least as extended as "My lord, the carriage waits."

American railroads pay a million dollars a day in taxes.

SUMMONS IN ACTION TO ESTABLISH TITLE

Action No. 12186

In the Superior Court of the State of California, in and for the County of San Mateo.

J. P. Bonds, Plaintiff, vs. All Persons claiming any interest in or lien upon the real property herein described, or any part thereof, Defendants.

The People of the State of California:

To all persons claiming any interest in, or lien upon, the real property herein described or any part thereof, defendants, greeting:

You are hereby required to appear and answer the complaint of J. P. Bonds, plaintiff, filed with the Clerk of the above entitled Court and County, within three months after the first publication of this summons, and to set forth what interest, or lien, if any, you have in or upon that certain real property or any part thereof, situate in the County of San Mateo, State of California, particularly described as follows:

PARCEL ONE.

Lot 34 in Block 26, as designated on the Map entitled "Map No. 1 of the Lands of the Union Park Land Company," which Map was filed in the office of the Recorder of the County of San Mateo, State of California, on February 16, 189?, in Volume "D" of Maps at page 2, and a copy thereof entered in Volume 2 of Maps, at page 50.

PARCEL TWO.

Lot 26 in Block 26 as designated on the Map above referred to.

PARCEL THREE.

Lot 9 in Block 39 as designated on the Map above referred to.

And you are hereby notified that, unless you so appear and answer, the plaintiff will apply to the Court for the relief demanded in the complaint, to-wit: That it be adjudged that the plaintiff is the owner of said property in fee simple absolute; that his title to said property be established and quieted; that the Court ascertain and determine all estates, rights, titles, interests and claims in and to said property, and every part thereof, whether the same be legal or equitable, present or future, vested or contingent, and whether the same consists of mortgages or liens of any description; that plaintiff recover his costs herein and have such other and further relief as may be meet in the premises.

WITNESS my hand and the seal of this Court.

Dated July 27, 1926.
(SEAL.)

ELIZABETH M. KNEESE, Clerk.
By G. R. Winter, Deputy Clerk.
W. H. Clay, Attorney for Plaintiff.

MEMORANDUM

The first publication of this summons was made in the Daly City Record newspaper on the 30th day of July, A. D. 1926.

The following persons are said to claim an interest in, or lien upon, said property adverse to plaintiff:

J. H. Dennis, Colma, California.

Daniel R. Carroll, San Francisco, California, and Mary Doyle, San Francisco, California, as the heirs and devisees of the Estate of Annie Carroll, deceased.

J. H. Rosseter, San Francisco, California, Joseph H. O'Brien, San Francisco, California, and John Halton, Salt Lake City, Utah, as Trustees for the stockholders of the Union Coursing Park Association, a defunct corporation.

First publication July 30, 1926.
Last publication October 1, 1926.

NOTICE OF SHERIFF'S SALE

No. 125501.

In the Superior Court of the State of California, in and for the City and County of San Francisco.

Geo. A. Applegarth, Plaintiff, vs. Rose Bories, Defendant.

Under and by virtue of an execution issued out of the Superior Court of the State of California, in and for the City and County of San Francisco, on the 1st day of July A. D. 1926, in the above entitled action, wherein Geo. A. Applegarth, the above named plaintiff, on the 15th day of August, A. D. 1925, recovered judgment against Rose Bories, the said above named defendant, for the sum of Sixteen Thousand Three Hundred Thirty-two and 73-100 ($16,332.73) Dollars, lawful money of the United States of America, and One Hundred One and 20-100 ($101.20) Dollars and accruing costs. And whereas an execution was issued to the Sheriff of San Mateo County on the 5th day of May, A. D. 1926, and a return made on the 1st day of July, A. D. 1926, showing a balance due of Four Thousand Five Hundred Forty-four and 53-100 ($4,544.53) Dollars, in lawful money of the United States of America, I am commanded to sell all that certain lots, pieces or parcels of land in the Town of Daly City, County of San Mateo, State of California, and particularly described as follows, to-wit:

Portion of Lot 185, as designated on the map entitled "Map of the property of the West End Homestead Association," which map was filed in the office of the Recorder of the County of San Mateo, State of California, on January 25, 1895, in Volume 4 of Deeds at page 415, more particularly described as:

COMMENCING at a point on the Northeasterly line of Lowell Street, 28.5 feet Northwesterly of the intersection of the Northeasterly line of Lowell Street and the Northwesterly line of Bellevue Avenue; thence running Nortwesterly along said Northeasterly line of Lowell Street 78 feet; thence at right angles Northeasterly 178 feet; thence at right angles Southeasterly 106.5 feet to the Northwesterly line of Bellevue Avenue; thence Southwesterly along the Northwesterly line of Bellevue Avenue 78 feet; thence Northwesterly 28.5 feet; thence Southwesterly 100 feet to the point of commencement.

Standing in the name of B. A. Banker and Adrian Levy or either of them.

Public notice is hereby given that on Tuesday, the 17th day of August, A. D. 1926, at the hour of Ten o'clock A. M. of that day in front of the County Court House, in the Town of Redwood City, County of San Mateo, State of California, I will sell all the right, title and interest of the said Rose Bories in the above described property at public auction, for cash in lawful money of the United States of America, to the highest and best bidder, to satisfy said execution and all costs.

Dated at Redwood City, California, July 20th, 1926.

T. C. McGOVERN,
Sheriff of San Mateo County.

Keyes & Erskine, Attorneys for Plaintiff, Humboldt Bank Building, San Francisco.

Published in the Daly City Record four times.

Colma News Notes

ny beautiful homes are being ed in Jefferson Portal Park.

s. Margaret McDonald of Daly was a Colma visitor one day of week.

Mrs. Anna Farthy of San Francisco visited friends in Colma, recently.

M. Feretti is spending his vacation on a motor trip through Oregon and British Columbia.

M. Lombardi has purchased a Jewett five passenger sedan.

Mrs. Annie Biggio, who is vacationing in Fairfax, was home for several days this week.

Miss Teresa Stampanoni, of San Pedro avenue, is spending her vacation in Santa Cruz.

Mrs. Mitchell Farmer, formerly Libera Botteo, has opened a beauty parlor at 5998 Mission street.

Mrs. William Sweeney is home from Rio Nido, where she spent an enjoyable vacation of several weeks.

Mrs. Edwin Cuneo of San Francisco recently visited her parents, Mr. and Mrs. A. Selmi of Mission street.

Fred Collins, drillmaster of El Carmelo drill team has been ill and Frances Bracken is now drilling the girls.

The firemen of Colma are very busy these days preparing for their monster bazaar to be held the latter part of August.

Misses Esther Forsell and Charlotte Sherwood spent an enjoyable week end recently at the cottage of Mrs. Fairbanks at Fairfax.

Miss Annie Boetto of San Pedro avenue spent last Wednesday at the home of her sister Mrs. M. Farmer of 5998 Mission street.

Mrs. Alice Jones and Miss Gladys Callan returned home from Fairfax where they spent several days as the guests of Mrs. Annie Biggio.

Misses Alvina Jost and Marie Andereggen returned home last week from the Russian river where they spent an enjoyable vacation.

Miss Catherine Hurst of San Francisco and Aurelio Bertetta of Colma will be married on Monday. The many friends of the young couple wish them all happiness.

Don't forget the whist party and dance to be given by El Carmelo Parlor No. 181, Native Daughters of the Golden West, on August 11, in the Daly City Auditorium.

Mr. and Mrs. Mitchell Farmer, Miss Annie Boetto, A. Bandettini and a party of friends enjoyed a dinner party at the Apollo Cafe in San Francisco, one evening of last week.

Miss Bernice Ballenger has left for Los Angeles, where she plans to spend a short vacation. When she returns she will be accompanied by Mrs. Wilton Ballenger and family.

Harry Deller was tendered a delightful farewell party at his home last Saturday evening. Harry is leaving Saturday for a three months' stay in New York. The trip will be made via the Panama canal.

A whist party will be given for the benefit of Holy Angels church in the parish hall on August 25, and every member of the parish is asked to help to make this affair a success. Donations may be left with Mrs. Teresa Altieri, Mrs. Laura Granucci or Mrs. Camille Benassini. Do your part and be present on this occasion.

Miss Julia May Sampson recently entertained the members of La Fiesta Social Club at her home in Daly City. An enjoyable evening was had by all present. After the business of the evening was transacted, dancing and singing was enjoyed by the merry crowd of girls. Delicious refreshments were served to the following: Marge Varni, Thelma Selmi, Louise Segale, Margie O'Connor, Lorraine Wall, Tessie O'Connor, Esther Forsell, Collista Dalton, Julia Sampson, Sarah Batiani and Laura Figone.

Don't forget that August 11 is the date of the big whist party and dance to be held in Daly City Auditorium, sponsored by El Carmelo Parlor No. 181, Native Daughter of the Golden West, for the purpose of raising money to pay the expenses of El Carmelo drill team to Sacramento; where they will represent the parlor in the big ninth of September celebration. This is also a boost for the community. So attend this whist party and help a good cause.

Last Wednesday evening the officers of El Carmelo Parlor No. 181 Native Daughters of the Golden West were installed by District Deputy Grand President Rena Mathais. Masonic Hall was crowded with members of El Carmelo and visitors from Redwood City, Oakland and San Francisco. The following officers will preside for the ensuing term: Junior Past President, Margaret MacDonald; President, Annie Biggio; First Vice President, Sylvia Fischer; Second Vice President, Alice Mathais; Third Vice President, Lorraine Wall; Marshal, Dolores Barron; Inside Sentinel, Rose Mowry; Outside Sentinel, Florence McKendrick; Recording Secretary, Josephine Johnson; Financial Secretary, Wilhelmina Barner; Treasurer, Ernestine Edmunds; Organist, Ida Doyle; Trustees, Anna K. Bauer, Emma Schwarz and Margie O'Connor.

A report on the Grand Parlor session was given by Sylvia Fischer. Following the meeting a novelty banquet was enjoyed in the banquet hall, which was decorated in red and yellow. Sylvia Fischer was chairman of the banquet committee and was assisted by members of the parlor.

The Jefferson Union High School opened last Monday after the summer vacation.

The Colma Athletic Club will give a dance on Saturday evening, August 21. Be sure to attend.

The grammar schools of the Jefferson district will open Monday after the summer vacation.

Mr. and Mrs. Mitchell Farmer, Miss Annie Boetto and Al Bandettini will spend Sunday at Alum Rock.

Ben Haubrich, Sr., and Ben Haubrich, Jr., spent last Sunday at the Gambetta ranch in Redwood City.

Richard Bauer returned last week from Colusa where he spent his vacation with his father, Henry Bauer.

The beautiful new home of Mr. and Mrs. Belli, which is being erected on First avenue, is fast nearing completion.

Misses Elsie Fahey, Marge Varni and Margaret O'Connor have returned from a wonderful vacation on the Russian river.

Mrs. Annie Biggio and children, Ruth and Henry Giggio, will return home Monday from Fairfax where they spent the school vacation.

Mr. and Mrs. Jack Callan and sons, Jack and Robert, have returned home from Southern California, where they spent an enjoyable vacation.

Don't miss the big whist party and dance to be held in the Daly City Auditorium on Wednesday evening, August 11, by El Carmelo Parlor No. 181, N. D. G. W.

Mr. and Mrs. Al Zanetti, Mr. and Mrs. Joseph Merlo and children, Misses Rose, Inez and Larraine Merlo, motored to Santa Cruz last Sunday where they spent the day.

Mr. and Mrs. Edward Bauer, Mrs. Robert Heeringa and Miss Emily Bauer returned to their homes last Sunday after a month's vacation spent in Los Angeles and the Yosemite valley.

Be sure to attend the big whist party to be given for the benefit of Holy Angels church in the parish hall on San Pedro avenue on the evening of August 25. Let's all attend and make this a booster whist party.

PASSING OF WELL KNOWN PIONEER OF SAN MATEO

Alexander Bain, for many years prominent in business and political circles of San Mateo, died last Friday afternoon at his home in San Mateo. He was 76 years old a native of Nova Scotia, and was among the best known pioneer residents of the city. Formerly in the foundry business in San Francisco, he had made his home in San Mateo for the past 18 years. He is survved by a widow, Mrs. Mary Bain, and two sons, William E. and F. W. Bain, of San Mateo. Funeral services were held Monday, with interment at Cypress Lawn cemetery, Lawndale.

COUPLE LIE IN MORGUE ON DAY OF HONEYMOON

William W. Morrow, Susanville merchant, and Mrs. Irene Cain, of San Francisco, were to have started on their honeymoon last Sunday. Instead they were lying side by side in the morgue at San Rafael.

The couple disappeared on the evening of June 9. Friends belived they had advanced their wedding date and were on their honeymoon.

The body of the bride-to-be was found in the bay off California City last Friday. Morrow's body was recovered Monday. A piece of windshield glass imbedded in his flesh strengthens the theory that the couple were drowned when their car plunged into the bay.

A Memphis tailor's sign reads: "Trousers pressed in the rear." Where they need it least.

BELMONT HOPES TO INCORPORATE

The hearing of an application for a special election to incorporate the city of Belmont was set for September 7, by the county supervisors, at their meeting last Monday, after a number of protestants had voiced objections to the incorporation of the community.

The petition to the supervisors, asking that an election be called, was signed by seventy-five residents of the district, and followed two meetings at which the project had been discussed and boundaries fixed for the area to be incorporated.

Upon the presentation of the petition last Monday, Chairman John MacBain of the county board suggested that hearing on the proposal be postponed for two weeks.

Mrs. Rosalie M. Brown, representing the Second township, in which the proposed incorporation area lies, said that due notice had been given to the interested parties, and asked for immediate consideration by the board. Supervisor Thomas Hickey, South San Francisco, said he would oppose any attempt to "railroad' the issue, to which Mrs. Brown replied that no attempt to hurry the project was being undertaken.

Among the protestants were F. D. Cornell, representing a company which owns large tracts of land along the bay shore near Belmont. He objected to the lands of the company being included in the incorporated area on the ground that the company's holdings are ranch lands and may not properly be included in a municipality, he said.

RADIO EXPOSITION AUGUST 21 TO 28

Radio audiences of the West are to have an opportunity of meeting with their favorite artists of the air at the coming Pacific Radio Exposition, to be held at San Francisco in the Auditorium, August 21st to 28th.

This was disclosed in an announcement made by the Pacific Radio Trade Association, under whose direction this third annual showing of the radio industry is to be held. The plan calls for special programs at the exposition by the various stations, during which most of the popular artists will make personal appearances. The programs are not to be broadcast from the exposition hall.

At first it was planned to give an entire day to a single station, in which to stage indvidual programs at both the afternoon and evening sessions. The flood of requests received by the management, however, indicates that the days will probably have to be broken up in order to accommodate all of the stations desiring to show their artists.

Applications have been received even from distant stations, indicating the wide range over which the radio artists spread their following. As far as is known this is the first time at any radio exposition in whch an effort has been made on such a large scale to present personally the popular figures in the programs of the leading stations.

Many other novel and unusual features are being arranged for the exposition which is America's first showing of the season and which those in charge declare will be second only to those of New York and Chicago.

The poet-laureate of Peru was sent to prison for three years, and probably got off light at that.

Many men have won undying fame by raising hades at the psychological moment.

An active mind in an active body is a great bid to longevity, particularly for pedestrians.

One reason so many poets are poor is that there are so many poor poets.

Few are so deceitful as to talk about a mule behind his back.

TO PROTECT THE DEER

THE watershed properties of Spring Valley Water Company in San Mateo County, comprising some thirty-six square miles, have become a great animal refuge.

This is largely due to the policy of "predatory animal control" pursued by Spring Valley in cooperation with the Federal Government and the California Fish and Game Commission.

Owing to this policy of "predatory animal control," and to the fact that Spring Valley, with rigid firmness, has prohibited hunting, deer have multiplied over all these square miles of watershed. They are very tame, and their presence is part of the charm of the countryside.

Spring Valley Water Company recognizes first of all the obligation of protecting the watershed, but also recognizes the high importance of protecting the deer. Deer are decreasing in California wherever hunting is unrestricted, and a deer refuge such as Spring Valley maintains is of very great benefit not only for the present but for the future.

Spring Valley Water Company proposes to continue, without the slightest let-down, its policy of protecting the deer on the San Mateo watershed. It will have, as always in the past, the hearty help of the authorities, Federal, State and County.

To their credit be it said, most hunters are sportsmen and respect the law. But at this time, the beginning of the deer season, notice is served on the thoughtless and the malicious that this Company has the cooperation of the Fish and Game Commission, that the watershed is being thoroughly patrolled by extra watchmen, and that hunters will be arrested and prosecuted.

SPARK PLUG CARE FOUND ESSENTIAL

Bureau of Mines Devotes Film to Its Importance to Automobile.

Uncle Sam has become vitally interested in the conservation of gasoline and has begun an educational program which is to embrace the entire range of gas-saving ideas. To the spark plug the bureau of mines has devoted a photoplay called, "The Story of a Spark Plug."

A hot, intense spark means economy.

A hot, intense spark means power.

A hot, intense sparks means a live engine.

When a spark plug loses intensity because of the great stress to which it is subjected in engine operation, it fails to give complete combustion of gas in the cylinder. These things then happen:

Spark Plugs Need Watching.

Power is lost.

The engine is sluggish.

Gasoline and oil are wasted.

The engine brought daily nearer to expensive overhauling and consequent loss of use of car.

The lesson to be learned is: "Watch your spark plugs." They are vital to good car service. The best engine in the best motor car in the world is no better than its spark plugs. It is a real economy to inspect spark plugs frequently and to replace them just as soon as they show signs of a weak spark—generally somewhere between 8,000 and 10,000 miles.

Most car owners have little real conception of just how their engine operates. It is a widespread belief that a series of explosions, taking place in each cylinder, makes the engine run.

What Really Happens.

This is not true. What really happens is:

1. As the engine turns over, gasoline passes through the carburetor, where air is mixed with it, the mixture entering the cylinder in the form of a highly inflammable gas.

2. The valves close and the piston moves upward, compressing this gaseous mixture.

3. At a certain point in the operation the compressed mixture is ignited by a spark leaping across the gap between the electrodes of the spark plug.

4. The gas burns with extreme rapidity, and in burning expands, forcing down the piston and thus generating power.

When your engine does all these things in full vigor, i. e., with a hot, intense spark, you're getting economy and power. When there is poor or incomplete combustion there is waste in power, gas and oil.

Countershaft Gears of Transmission Essential

Do the countershaft gears of the transmission serve any useful purpose when the car is in direct, or high, gear?

The countershaft drive gear of the conventional transmission always is in mesh with the clutch, or main shaft, drive gear. But in direct drive (high gear), the countershaft drive gear plays no part in transmitting power. Why, then, should it and the countershaft gears controlled by it continue to revolve?

Here's the answer. The countershaft gears are in the bottom of the transmission case and as such are deeper in lubricant. Their action in rotating serves to keep the grease stirred up, thereby raising lubricant to take care of the sliding gears, the gear shift forks and the transmission bearings.

Buying of Automobiles Is Now a Family Affair

If any one were to place his finger on the more important items in motor car construction at the present time, the fact that the purchase of automobiles is now a family affair would stand out as one of the most distinct.

It has only been within the last few years that this development has come about, for it can be readily remembered how, only a short time ago, the men of the family were the only ones considered capable of operating an automobile. Nowadays the situation is entirely different; probably no one enjoys driving a car more than the women of the family.

When all things are taken into account, the drift seems to be toward the light car to fill the requirements of family use.

And with this characteristic come the developments in comfort that light weight makes possible. It is just being generally appreciated how important it is to make a car light in its unsprung parts, like the axles, so that the pounding effect of this weight upon the road is minimized. The old theory that weight is essential to riding ease has been exploded, and the true principle, which considers the proper relation of weight above and below the springs, has taken its place.

Designers have also found how much easier the spring action of the light car can be, because of the ability to make the springs more sensitive. The handling qualities of a car are also closely related to light weight, so that the light car is easy to guide and is responsive to braking effort.

Useful Arrangement for Light in Small Garage

Stumbling over a can of oil or barking your shins on some of the garden tools can be eliminated by fitting the ceiling light in your garage with a chain pull type of socket and then running one pull to each point at which you enter or leave the garage either on foot or in the car. As

Chain Pull Is Helpful.

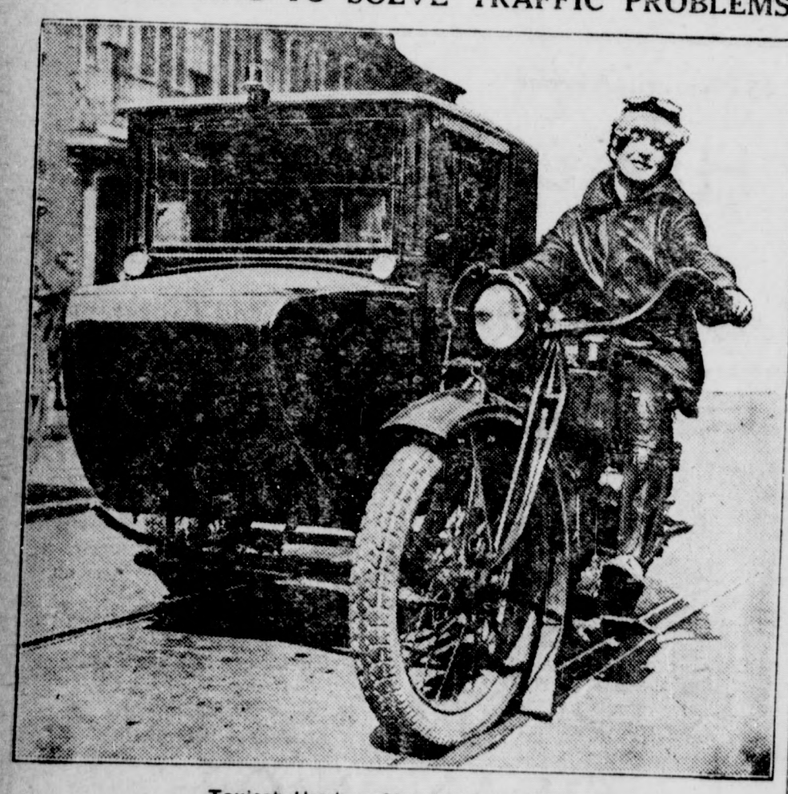
shown in the illustration, a good arrangement is to put a screw eye in the ceiling a short distance from the light and then run three cords through the opening and tie them to the end of the chain. Supported by another screw eye, one cord can be dropped by the back entrance door and the other two to each side of the main doors, where they can be reached easily from the car.—Popular Science Monthly.

Buying Automobiles on Time Is Favored Plan?

There is a great deal to be said for and against the policy of buying automobiles on time, but recently there has been a tendency to forget that there always are two sides to a story.

Even the manufacturers have overlooked this. One of them, for instance, believes that the deferred payment plan enables more people to buy cars of the better class that last longer and give greater real economy. No one denies this. Yet at the same time it is well to see the other side of the deferred payment plan. Here one finds millions of persons buying cheap cars every year, forgetting all about the matter of economy in long car life just because it is so easy to buy cars nowadays.

ATTEMPTING TO SOLVE TRAFFIC PROBLEMS

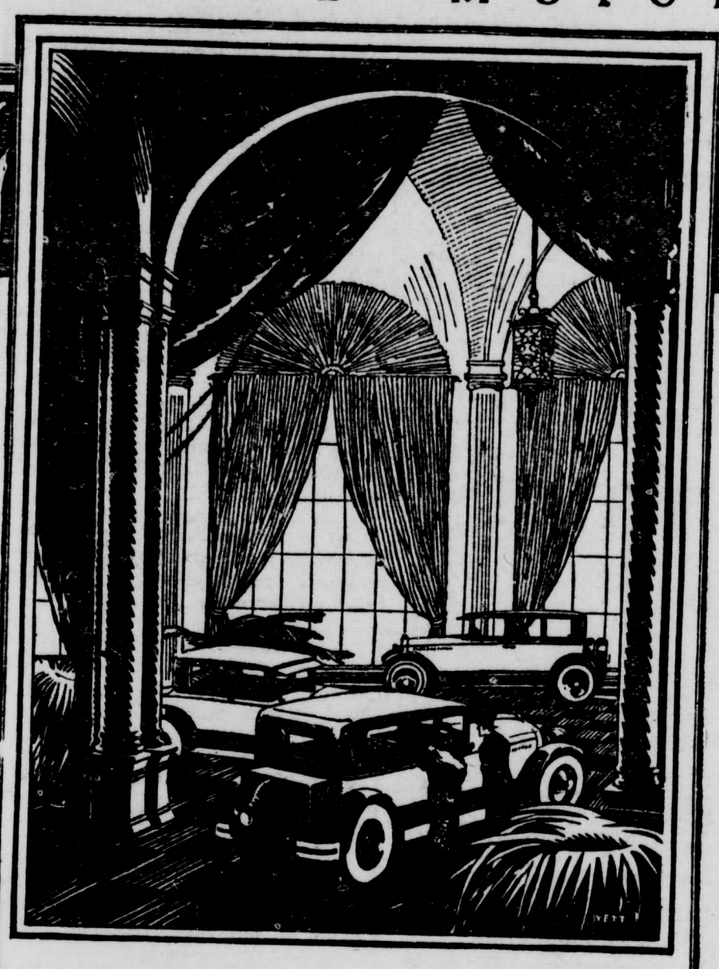


Taxicab Used on Streets of Baltimore.

The new motor cycle taxicabs which have been used successfully in Baltimore, Md., will be adopted in other cities to help solve the traffic problems. Two other qualities are in their favor; the fare is about one-half that of a regular type taxi, and it is capable of great speed, as well as being able to dart in and out of traffic with ease. This photograph shows Miss Lillian Lubinsk, at the handle bars of a new motor cycle taxi in Baltimore, Md.

FISHER BODIES

GENERAL MOTORS



LOOK AT THE NEW CARS AND SEE—BODY BY FISHER

The new car announcements of General Motors have swept Fisher into the greatest eminence in motor car history.

Everywhere you see the emblem—Body by Fisher. In all price classes, it is the inescapable badge of quality. The leaders, such as Cadillac, Buick, Chevrolet, Oakland, Oldsmobile and Pontiac, all display as one of their proudest assets the symbol—Body by Fisher.

It is their assurance of public satisfaction—in safety, in charm of line, in beauty of color and appointment, in comfort and convenience.

Fisher—the greatest body builder in the world—stands head and shoulders above all others in quality. The new General Motors cars all help to prove Fisher leadership.

Old English Township Given Dignity of City

Salford, the great manufacturing township of Lancashire, England, which has benefited by the creation of the Manchester ship canal, is at last to be elevated to the dignity of a city, thus bringing it into line with its neighbor, Manchester. The two cities are divided only by the narrow and greasy waters of the River Irwell, crossed by many bridges. Victoria railway station, the most important of Manchester, really stands in Salford.

When Salford became one of the ancient hundreds (with power to administer laws, as in the case of manorial rights), Manchester was so poor, having been devastated by Danish invaders, that its territory was included in the jurisdiction of Salford. On the other hand, Manchester had ecclesiastical buildings when Salford had none, and not until 1634 did Salford own a chapel. Now it possesses a cathedral, in company with Manchester.

No matter how careful you are, your system needs a laxative occasionally. Wright's Indian Vegetable Pills help nature gently, but surely. 372 Pearl St., N. Y. Adv.

A Way Out

"Well, how did you and Johnny get along?" Robert, nine years old, was asked after he came in from playing ball with a small friend of his.

"Not so well," Robert answered. "He threw a rock at me, and hit me, so I hit him back. Then he told a big boy, and he came out and started fighting."

"I suppose you ran. Why didn't you fight back?"

"Oh, well, I had to come home anyway," said Robert, settling the matter.

A single dose of Dr. Peery's "Dead Shot" is enough to expel Worms or Tapeworm. Why not try it? 372 Pearl St., N. Y. Adv.

Moon Lopsided

Prof. E. W. Brown, of Yale university has, after many calculations, come to the conclusion that the moon is lopsided with quite a pronounced bulge at the top. He explains the irregularity by saying that the heavier materials of its substances are what appear to the eye at the bottom and that a bulging of the upper surface is required if the moon is to balance itself in space.

If people would neither borrow nor lend there would be more lifelong friendships.

A Perennial One

"Pa, what's a valedictorian?"

"A valedictorian, my son, is the one who speaks last."

"Then ma is a valedictorian, isn't she, pa?"

Station Rebuilt in a Night

Terra Buena substation's bank of three transformers, supplying power to many irrigationists west of Marysville, was destroyed by fire Sunday afternoon, June 27. As the irrigation season was on, it was necessary that service be restored as quickly as possible. A new set of transformers was sent for posthaste from Marysvale, a gang of men worked far into the night and the next day the irrigators were able to operate their pumps as usual.

FINANCIAL RATING STANDS ABOVE PAR

California's financial rating, so far as the state government is concerned, stands far above par, State Treasurer Charles G. Johnson reports, despite heavy expenditures required to keep pace with the state's tremendous growth.

The gross debt of the state government, as fixed by the United States Department of Commerce in its 1926 report, totals only $110,745,966, the treasurer announced. The net debt, or funded and floating debt, less sinking fund assets, was placed at $91,980,650.

In his report on the California indebtedness as compared with other states, Treasurer Johnson said.

"The state's sound financial condition is best attested by the fact that while it ranks fourth in wealth and eighth in population, it is listed by the federal government as tenth in per capita state debt.

"California's population has doubled during the past twenty years, resulting in a corresponding growth in the business of the government. The per capita state debt, however, is only $28.70, or lower than the indebtedness in many smaller states which have not enjoyed unusual development. No better evidence of California's remarkable prosperity could be desired than is furnished by these facts.

"In addition to the populous states of Massachusetts and New York, both of which report far larger indebtedness, California has a lower per capita debt than Oregon, Nevada, North Carolina, West Virginia, South Dakota and North Dakota. The highest state per capita debt is reported by South Dakota with $95.60, while New York ranks next lowest to California with a per capita of $29.15.

"Of the nine state groups in the nation, the Pacific Coast stands fifth in combined state debts, wth a total of $196,306,681. Groups with a heavier indebtedness include the Middle Atlantic states, East North Central states, West North Central states and the South Atlantic states."

SUMMONS

No. 11968.

In the Superior Court of the State of California, in and for the County of San Mateo.

Action brought in the Superior Court of the State of California, in and for the County of San Mateo; and the complaint filed in said County of San Mateo in the office of the Clerk of said Superior Court.

WILHELM E. COOPER, Plaintiff, vs. MELAINE COOPER, Defendant.

The People of the State of California send Greetings to MELAINE COOPER, Defendant.

You are hereby required to appear in an action brought against you by the above named plaintiff, in the Superior Court of the State of California, in and for the County of San Mateo, and answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of this Summons, if served within said county, if served elsewhere within thirty days.

And you are hereby notified that if you fail to so appear and answer, the plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or will apply to the Court for any other relief demanded in the complaint.

Witness my hand and the Seal of the Superior Court of the State of California, in and for the County of San Mateo, this 13th day of May, A. D. 1926.

(SEAL.)

Associate Justice, District Court of Appeals, Full Term—D. A. Cashin.

State Board of Equalization, First District—John C. Corbett.

Judge, Superior Court—George H. Buck.

SAN CARLOS-BELMONT EXCHANGE PLANNED

The Pacific Telephone and Telegraph Company are now making the first steps towards the establishment of the new San Carlos-Belmont exchange. The installation of the necessary equipment in the new building at San Carlos has begun, and the total project when completed will represent an expenditure of $66,000.

The work provides for the installation of two sections of switchboard and associated equipment, which will cost $12,000 and the placing of outside aerial and distribution cables at a cost of $54,000. In the latter part of this project eight miles of aerial cable, containing from 50 to 400 pairs of wires, are to be placed, which in turn necessitates the installation of 135 cable terminals.

This cable is to be distributed in the following manner: A 400 pair cable together with distributing cables are to be placed throughout San Carlos, and a 200 pair cable will be extended from the Devonshire Tract on up to the Belle Monti Tract. In addition a 100 pair cable will be placed along the county road between San Carlos and Belmont, which will provide service for the town of Belmont. It is also proposed to extend a 400 pair cable south of San Carlos to serve the San Carlos Addition, Oak Park and White Oak Park. This cable will provide the necessary facilities to furnish service for these tracts as soon as they are developed.

According to J. F. Adams, manager at Burlingame, the project will be completed, equipment installed and a new exchange established September 1, next.

"This work," Manager Adams announced, "is an emphatic indication of the Pacific Telephone and Telegraph company's confidence in the future rapid expanison of this district and the surrounding territory.

Man's universal delusion is that he will some day get out of debt.

Chicago has witnessed the largest religious gathering in history, and few places ever needed it more.

It appears that Senator Jim Reed simply doesn't like any old kind of a League.

NEWS NOTES OF PERSONAL INTEREST

By MARC WORST

Mr. Lang, of Colma street, has returned from his vacation.

Henry Schlobohm, of Berkeley, visited his niece, Mrs. H. H. Smith, last Sunday.

Mrs. Soubre, of Willows, is spending a few weeks in Daly City visiting Mrs. L. Lombard.

Mrs. W. White, of Theta avenue, and Mrs. E. L. Scott, of 54 Parkview avenue, spent Sunday in Arcadia, Lake county.

Mr. and Mrs. Sherwood and family returned Monday from their vacation at Fairfax.

Mrs. C. Hein and Mrs. G. Schulz visited Mr. and Mrs. P. Ross and family on Thursday.

Mrs. L. Ross and daughter Esther of 183 Los Olivos avenue, spent Sunday visiting relatives in Galt.

Mr. and Mrs. Jacoby and daughter of Oregon, are visiting her sister, Mrs. H. Warshawski, this week.

Mr. and Mrs. Vandenberg have purchased a new home at 425 Santa Barbara avenue. They moved in last week.

A red vanity case was found and turned over to Marshal Doyle. The owner may have it by identifying it at his office.

A whist party is to be held in the South San Francisco parish hall on August 19, at 8:30 p. m. Mrs. Smith will be in charge.

Mrs. A. J. Hoer and son Alfred returned Thursday night from a trip to Monticello, Minnesota, where they had been vsiting her parents.

Mr. and Mrs. Shannon left Tuesday morning on an automobile trip to Seattle and other points in the north.

Gladys Brabant has returned from her visit to her aunt's home in San Francisco, where she spent several weeks.

J. J. Hahir, who is one of the candidates for county treasurer, was in this city last Saturday, calling on his many friends in this vicinity.

J. Reilly, who had been visiting at the home of Mrs. M. Murphy, of Hanover street, for the last two weeks, returned to Marysville Sunday.

Mrs. Grace Lawrence Cooper, candidate for county treasurer, was in Daly City last week, calling on a number of her friends in this city.

The family picnic of the Daughters of Israel, held last Saturday at Neptune Beach, was very successful, being well attended, all reporting having had a most enjoyable time.

Mr. and Mrs. N. Saarinen and son Victor, Mr. and Mrs. Parker, Mr. and Mrs. Gigli and Mrs. W. Hall spent a few days last week on a camping and fishing trip on Eel river.

Bill Hopman, deputy marshal, has returned from his vacation spent near St. Helena. He made the trip to hunt deer, but the deer were "out to lunch," so Bill returned empty handed.

A whist party will be given by Vista Grande Camp No. 6035, Royal Neighbors of America, at Eagles' Hall, Daly City, next Tuesday evening, August 10. Score cards 25 cents. All are invited.

A. Goldstein, a former resident of Daly City, who has been living in Redwood City for the past three years, has returned to Daly City to make his home. He finds that Daly City is truly "a good place to live."

The Board of Fire Commissioners of Daly City met Monday and discussed the possibilities of reducing the fire insurance rates in Daly City, because of the new and larger mains and the fire alarm system.

Rev. and Mrs. Stanley McClintic announce the arrival of a son, Stanley Arthur McClintic, on August 2, 1926. Both mother and son are doing nicely. Stanley Arthur weighed eight pounds at birth. Mrs. McClintic is at the St. Luke's hospital.

Alex Doskoris, of Peter's Lunch, has returned from a hunting trip in the vcinity of Ukiah. Alex demonstrated his marksmanship by bringing down a deer, which has been on exhibition in the restaurant window.

Mrs. F. F. Crowly, of 199 Santa Cruz avenue, was injured in an automobile accident last week. The accident occurred across the bay, but she has since been brought home and is still in bed, but is recovering. She was quite badly bruised as a result of the accident.

Mrs. Elizabeth M. Kneese, popular and efficient county clerk, was in Daly City last Saturday, attending to business matters. Mrs. Kneese is a candidate for re-election, and has no opposition, hence she will be found at her post serving the people of San Mateo county for another term.

Marc Worst left Monday for a two weeks' vacation at the Boy Scouts training camp of San Mateo county, held in the Memorial Park, near Pescadero. Marc is the assistant chief of the camp and director of education. He is a member of San Bruno Scout Troop No 72, being assistant Scoutmaster.

A number of Daly City people attended the whist party given by the Women of Woodcraft in South San Francisco last Wednesday evening, among those attending being Mesdames Shaw, Pavlos, White, Scott, Thomas, Pazzana, Johnson, Mr. and Mrs. Gillett and Mrs. Michelson and son.

While driving her new Rickenbacker coach, near Saratoga, Mrs. A. Vigert, of 485 Knoles avenue, was the vicitim of an unfortunate accident, which might have proved more serious than it did. Mrs. Vigert was driving behind a sprinkler, and as she turned out to pass it, her car skidded, turned over twice, and landed in an orchard. The machine was almost completely demolishe, but Mrs. Vigert miraculously escaped without injury.

The new pump has been installed at Citrus and Niantic avenues and is reported to be working in a very efficient manner. Many tests have been made, and now that the authorities are sure of its perfection, they have started to remove the old machinery. Work on the pump house is is nearing completion, and it is hoped that by the first of next month it will be open and ready for inspection.

The whist party last Tuesday evening in the Daly City Auditorium was remarkably sucessful in attracting a notable gathering. All the ambitious political characters of the county were present and each one was accorded a hearty welcome. So many of them were present it looked like a county convention. All of them were friendly and generous, and each left behind him a strong following of ardent friends. Every candidate is deserving of a courteous reception.

The whist given by the Liberty Belles Club at the home of Mrs. S. A. Landini, the president, was a social and financial success.

Mr. and Mrs. Edward Joy and two children, Ivy and Howard, have recently returned from a week's vacation on the Russian river.

Mr. and Mrs. A. E. Chesterman, of 161 Peoria street, have just returned home from Santa Cruz, where they spent a most enjoyable week.

Mrs. E. McKee, of 79 Irvigton street, was in an antomobile accident last week. She was not seriously injured, and is recovering from cuts and bruises.

Mrs. M. Murphy and daughter Gertrude and Mrs. A. Cochrane and daughter Patricia spent Thursday evening at the new home of Mr. and Mrs. P. Ross in Robson Tract.

People returning from their vacations are asked to notify Marshal Doyle. He also asks that they carefully lock all doors and windows before leaving their homes.

William McGregor, of the Record, is enjoying a vacation this week in the southern part of the state, visiting Los Angeles San Diego and Tijuana, and other points of interest.

The whist party given Tuesday night in the Daly City Auditorium for the benefit of St. Maximus church was a decided success in every way. Mrs. J. Johnson supervised the affair.

Mr. and Mrs. G. English, of 841 Hanover street, and their niece, Ivy Joy, of 39 San Pedro avenue, have left on a motor trip to Vancouver, B. C., and expect to be away at least three weeks.

Jim McGrath, who is out for county auditor, was in Daly City last Saturday, calling on old time friends and looking after his political fences. Jim seems confident that the decision at the polls will be in his favor.

J. J. Shields, county auditor, who is seeking re-election, was in this city the fore part of the week, attending to business matters. Mr. Shields has a host of friends in this section who are always glad to see the genial county auditor.

Marshal Doyle wishes that parents would help the police of Daly City by keeping their children from breaking windows in the new homes that are under construction. The children who are damaging property of others are minors, aand the parents will be held responsible.

The Woodrow Wilson-Vista Grande P. T. A. will hold its next monthly whist at Ryan's Hall, Tuesday, August 10, at 2 o'clock. Mrs. James McIsaac is chairman. A most cordial invitation is extended to the ladies to come and enjoy a social afternoon.

The accident last Wednesday evening through which Sheriff T. C. McGovern was injured calls forth deep regret here and all over the county. It seems such a pity that it should happen in the midst of an active campaign and the first reports are to the effect that it was unavoidable. It is hoped by all, supporters and opponents, that Sheriff McGovern was not badly hurt, and that he will soon be on his feet again, able to complete his contest for the retention of his office. No one wishes this more sincerely than his opponent, Frank Roach.

Henry T. Rolph, recently upon the completion of his fifth year in the grocery business, moved into his new building on the corner of Crocker avenue and Brunswick street. Mr. Rolph deserves particular mention of his untiring efforts to please the people of the district, as well as being a good parent, he having to his credit two sons who have the making of good American citizens of Daly City. Mr. Rolph has the best wishes of this community, as he has been foremost as well as generous in all enterprises that were a benefit to our city, as well as the county. The building which Mr. Rolph now occupies is a credit to the town, and is due to his hard work and far-sightedness.

Mr. and Mrs. J. B. Cassou, former residents of Daly City, have returned from a trip abroad and will again make their home here.

NOTICE
To Taxpayers

EQUALIZATION OF ASSESSMENT ROLL

Office of the Clerk of the
CITY OF DALY CITY

Public notice is hereby given that in accordance with the General Laws of the State of California and Ordinance No. 94 of the City of Daly City, the Assessment Rolls of the City of Daly City, County of San Mateo, State of California, for the fiscal year 1926-1927 has been completed and delivered to me as Clerk of said City and Clerk of the Board of Trustees of said City, and will be open for examination in my office at the City Hall from 9:30 a. m. to 5 p. m. of each day, and that the Board of Trustees of the City of Daly City, County of San Mateo, State of California, will meet on the

9th day of August, 1926,

at the hour of 10 o'clock a. m. of said day, and sit as a Board of Equalization to equalize assessments, and will continue in session from day to day until all the returns of the Assessor have been rectified.

Applications for correction of assessment of real estate, improvements and personal property are required to be verified by oath and filed with the Clerk.

B. C. ROSS,
Clerk of the City of Daly City, and Clerk of the Board of Trustees of said City.
